UNLOCK YOUR CREATIVE POTENTIAL WITH CREATIVE.SPACE 3.0

Elevate your creative workflow with creative.space, an innovative platform that offers on-premise managed storage and integrated server software. Our cost-effective and efficient solution eliminates the constraints of purchasing hardware and managing multiple software subscriptions. Engineered to simplify your creative process, our comprehensive platform seamlessly unifies collaboration, file transfer, storage, and media asset management into a single, streamlined workflow. Experience the advantages of creative.space 3.0 and unlock the full potential of your creative projects

LATEST FEATURES FOR 2023

Enhanced Metadata and Thumbnails

Metadata and thumbnail generation of hundreds of file types. Added support for ARRI, BRAW, and RED video files

Multi-device Ingest

Directly ingest folders and files from attached USB drives, SMB, FTP, and specific devices such as RED Cameras and Blackmagic Hyperdecks

Share Links and Thumbnails Click to clipboard shareable links for use in emails and messaging applications

HTML5 Streaming Server Built-in server and player that will stream HTML5-compliant files. Support for 360-degree recorded videos

High-speed Binary Data Transfer Support for multi-terabyte folder and file

Launch on Desktop Onsite or remote, with a single click on the web app, automatically mount and open files with their default application

Libraries and Tagging

Free-form tags are organized by spaces, sections, and groups. New Client user type to limit them only to access Library pages

USB Ingest

Attach an external drive or camera card to copy files to the storage internally and free up workstation and network resources

Access Control

Manage users, groups, and roles to control and monitor access to your data

Monitoring and Alerts

Over 2500 metrics are captured every few seconds to trigger pre-built alarms and notifications

Full-Featured Spaces File Manager

Search, browse, preview, play, discover, copy, move, sync, and share files directly on the storage

SIMPLIFY YOUR STORAGE EXPERIENCE RE-IMAGINE STORAGE AS A POWERFUL PLATFORM

ONE BOX LETS YOU CONNECT, COLLABORATE, AND CREATE FROM ANYWHERE

The creative.space platform re-imagines storage from the ground up to simplify the storage experience for content creators and video teams. Simply mount shared spaces to your desktop over local and remote networks. Edit video in real-time over the internet with optimized proxies and then transfer source files overnight with VPN-enabled UDP acceleration. The creative.space platform combines on-premise and cloud storage features into a line-up of turnkey servers. We call it "Fog".

ALL-INCLUSIVE OPEX SERVICE

HARDWARE SOFTWARE SUPPORT

POWERFUL DATA PROTECTION AND RECOVERY

Nothing is worse than losing your work. Storage is only as valuable as the data stored on it. That's why creative.space is built to ensure data integrity.

Protection: Every block of data is verified with a checksum which is used for self-healing of bit-rot

Recovery: Recover deleted or modified files through Snapshots and our simplified Snapshot Browser

Simplicity: Create and delete Snapshots with scheduling and expiration dates

BENEFITS:

- CENTRALIZE MEDIA AND ACCESS
- SAVE TIME AND MONEY
- ELIMINATE STORAGE-RELATED STRESS
- MORE CREATIVE TIME AND SPACE
- SCALE FROM 48 TB TO MULTIPLE PBS

PROACTIVE SUPPORT AND MANAGEMENT

If you have to think about storage, it's usually because you have a problem. As a systems integrator, we were the ones that customers called when things went wrong. Now, our support team reaches out to you, proactively, thanks to an army of built-in alarms that are triggered by over 2000 metrics captured every second.
